WORK EXPERIENCE

REACT NATIVE ENGINEER

Brass Technologies | March, 2021 – Current

Brass is making banking more useful for fast growing businesses. Brass seek to make it easy for business people, entrepreneurs and freelancers to have cheap and yet premium banking services.

- Develop new user-facing features
- Building pixel-perfect, buttery smooth UIs across both mobile platforms
- Building reusable code and libraries for future use
- Writing automated tests to ensure the product is of the highest quality.
- CI/CD with Codemagic and delivering app to the stores with Fastlane

REACT NATIVE ENGINEER | FRONTEND ENGINEER

Rise Capital | April, 2020 – April 2021

Rise are a technology-driven finance company connecting everyday Africans with the best dollar-denominated investment opportunities around the world.

- Leverage native APIs for deep integrations with both platforms.
- Diagnose and fix bugs and performance bottlenecks for performance that feels native.
- Reach out to the open source community to encourage and help implement some library fixes
- Built the Adviosry App, to help users communicate with our advisors, for financial advises and make solid decisions concerning their investments

- Collaborate, support and work hand-in-hand with backend, QA, design and product colleagues.
- Worked on data visualisation for our users to see their investment growth with D3.js and React Native Animation

FRONTEND ENGINEER | REACT NATIVE ENGINEER

Clane Company (Contract) | May, 2020 – October, 2020

Clane are focused on using technology to provide access to financial products and services to more people in Nigeria and across Africa. I joined clane on a contract bases to use Angular and React Native to build finacial solutions with cutting-edge technologies like Contactless and MPOS Payment.

- Mpos Integration With React Native which uses bluetooth and a MPOS device to complete payments and transactions
- Contactless payment Integration With React Native, this required the usage of NFC on devices to transfer payment information and complete them on customers or merchants devices.
- Built a Merchant portal system with Angular, Rxjs and Typescript
- Also wrote unit test for components across apps to ensure product quality

FRONTEND DEVELOPER

SportCompass, Denmark | Sep, 2019 – March, 2020

Use SportCompass to find out which bars are showing your favourite games and the first beer is always on the house. SportCompass isn't just a website, but a thriving, friendly community of football fans. Go to one of our events alone, and you'll leave with new friends.

- Change of the existing SportCompass Website to ReactJs. It was formerly built as a server-side page in Ruby
- Collaborate, support and work hand-in-hand with backend, QA, design and product colleagues.
- Cause we majorly care about mobile accesiblity, it was built as PWA
- Also worked on the Admin system, to manage Bar Owners

FRONTEND DEVELOPER

Telios Support Services | Sep, 2018 – Oct, 2019

FRONTEND DEVELOPER

PlatformLead | Apr, 2018 – Jan, 2019

FRONTEND DEVELOPER

Startup Studio | Jun, 2017 – Mar, 2018

I worked as a Frontend Developer at Startup Studio. Building solutions with React, React-Native and VanillaJS.

- Wrote Javascript, HTML and CSS code using advanced frameworks

- Redesigned and dramatically simplified overly-complex user interfaces, while preserving all functionalities
- Work on the implementation of high-leverage features to optimize UX and conversion rates
- Single Page Application and Server Side Rendering development
- Automated frontend testing

SOFTWARE ENGINEERING INTERN

Konga Online Shopping Mall, Ikeja. | Dec, 2016 – May, 2017

I worked in a team that builds the shipping and logistics system. Tech stack: Backend Services in PHP, NodeJS/Express, Frontend Apps in Angular and React.

- Build innovative, state-of-the-art applications and collaborate with the User Experience (UX) team.
- Refactor, optimize and improve the existing codebase for maintenance and scale.
- Utilize backend data services and contribute to increasing existing data services API.
- Use test-driven development to ensure feature quality.
- Interface with customer and internal teams to gather requirements and develop software solutions.
- Document the development process, architecture, and standard components.

FIVERR

Freelance Javascript Developer | May, 2016 – Dec, 2017

I worked as a Freelance Javascript Developer on fiverr, by building solutions with React, React-Native and Nodejs.

- Did plenty of freelance work with web technologies (React, React-Native and Nodejs)
- Implementing UI/UX designs and mock-ups
- Implemented automation tasks using Grunt and Gulp
- Learnt the AWS stack
- Worked with clients from all over the world

EDUCATION

OBAFEMI AWOLOWO UNIVERSITY

Computer Engineering - CS Major | Mar, 2012 – Feb, 2017

Took courses like: Object Oriented Programming, Assembly Language, Data structures and Algorithm, Automata Theory, Compilers, Human and Computer Interactions, Project Management, Computer Architecture, Artificial Intelligence, Natural Language Processing e.t.c
Also Contributed to the Developer's Community: GDG OAU, Consonance, IEEE, WIE.

PROJECTS

REACT AND REACT NATIVE DEVELOPER

Gosquare | Feb, 2019 –Current

REACT NATIVE DEVELOPER

AccelerateTV | Jan, 2018 –Jun, 2018

FRONTEND DEVELOPER

DYSHR | May, 2018 – Dec, 2018

SKILLS
